

- Name and surname: Styliana Katsoulaki
- Class, institute, country: I go to the 3rd class (C01) in Sxoli Omodous, in Cyprus.

A circular thing that we do in my house is recycle old clothes also we use the old clothes to make new ones by making some changes. The activity that we did at home, researching and trying to come up with a question for the Flip Classroom was very interesting. I felt like a university student that had a task and had to work on her own. Furthermore, it gave me the opportunity to learn new things.

The activity that took place at school with the discussion and the Flip Classroom was very nice, it was fun and challenging. Most of all I liked the fact that we worked together, and I found very interesting some of the questions asked. If I could change something it would be my own preparation for some of the stages of the activity.
